When I grow up I want to be two things a chef and a Entomologist. I want to be a Entomologist because I like being around bug and studying them, see what they change into and learn stuff about them. I want to be a chef because I like cooking pizza and mixing different things like flour, sugar, Baking and stuff like that.

Newspaper Article by Abbie 

This newspaper article is about 9/11.

On September 11th 2001, four airlines were hijacked. The hijackers were from an Islamic Extremist group named al-Qaeda. Two of the planes crashed into the twin towers. The third plane crashed into the pentagon and the forth plane, called Flight 93. Flight 93's target was the United States Capitol in Washington D.C but the passengers would not let the hijackers reach their destination. The hijackers did NOT reach their destination!

Right before the second plane hit the World Trade the wing disappeared and it is strange because it was not by the angle of the plane, it really disappeared!

In New York City the emergency command center imploded because of all the fires happening at the twin towers.

Jacob's Birthday Party

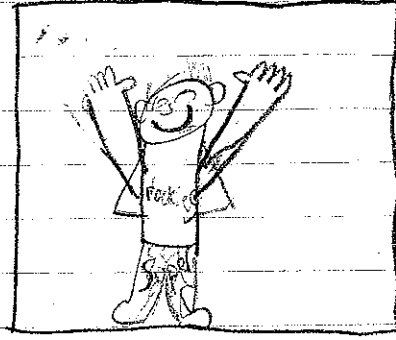

My favorite Summer memory

One day, March, 2nd, it was Jacob's birthday. We planned to go to Dave and Buster's. So Mom picked me up and drove us to Deneq. Katie, Deneq, Mark, Tyler, Caleb was there. Then Jacob, TC, Andrew was coming too. TC, Andrew, Jacob, Tyler, My Mom was going in her car. Katie, Deneq, Mark, Caleb and I was going in Deneq's car. Later we got to Dave and Buster at last! We all ate first then after that we went to have fun. My favorite game was racing on that car game. Because I want to drive really soon. We won over 2,000 tickets. We got a lot of things like toys. Finally we got in our cars said goodbye then went home and went to bed.

Side ways Stories from Charles Hayworld School

Mr. Carlson

Mr. Carlson is a funny teacher. He thinks

he can do anything, like fly.

He jumped off a light on the ceiling with a Super hero

slash baseball outfit. We

rushed him to the E.R! On the

way there he was laughing

and we wondered why. We got

him in a room and the doctor

said there was nothing wrong

he just hit his funny bone.

We were Suprised! Now

we got in the X-ray room and

in the middle of the X-ray,

he said have you ever acted like you were being electricuted. The class looked at each other. He started flopping everywhere like a fish in a frying pan!

We went back to the School and the Principal said where were you and looked at each other one more time and said all together WE WENT ON A VERY FUNNY FUN FIELD TRIP! The End
