

We have had an amazing year together. Your creative, imaginative, dedicated children have made this year in third grade one I will always treasure. Hopefully your students feel the same!

We have started to reflect on our year, and excitedly anticipate becoming fourth graders.

Enjoy the last couple weeks of third grade, and remember – learning doesn't stop when Summer Break begins! Instead, it is a chance for you and your family to explore various museums, historical sites, sports, outdoor adventures, and the beauty of Colorado. Have fun and be good to one another!
